

Draft Curriculum Policy

School Mission, Vision and Vales

At BIC Sa Porrassa, our guiding statements are the core of our purpose, direction and decision-making.

Mission- example

BIC Sa Porrassa offers the best of British education by providing high quality, innovative teaching to an intercultural community. BIC students experience a wide range of opportunities and make excellent progress, whatever their starting points. BIC ensures that every child feels safe, challenged and happy during their learning, preparing them to be confident, resilient global citizens.

Vision

To provide an excellent British education in an international setting ensuring all students are happy, safe, and challenged in their learning.

Core Values

We promote **respect**; building empathy and celebrating diversity.

We develop **compassion**; encouraging care and kindness amongst all our students.

We build **independence**; encouraging our students to be self-reliant and inspiring continuous learning.

Aims

Students will be happy, safe, and challenged in their learning.

The curriculum is aligned to the school's and the Group's guiding statements.

At the BIC Sa Porrassa we aim to be a vibrant and challenging school which opens the minds and hearts of our students. Our objective is to guide and encourage our students to develop and progress spiritually, academically, pastorally and communally, enabling them to take their place in society as responsible global citizens.

Every student is encouraged to strive for excellence/ success, whether in mathematics, languages, science, sport or the performing and creative arts. Our students begin by following the EYFS, leading into a curriculum which is *based* on the English National Curriculum at Key Stages 1 to 5.

The curriculum aims to provide all students with experience in the following areas of learning (guidance/ stipulations UK best practice Ofsted/ Independent Schools Inspectorate):

Linguistic This area is concerned with developing students' communication skills and increasing their command of language through listening, speaking, reading and writing.

Mathematical This area helps students to make calculations, to understand and appreciate relationships and patterns in number and space and to develop their capacity to think logically and express themselves clearly. Their knowledge and understanding of mathematics should be developed in a variety of ways, including practical activity, exploration and discussion.

Scientific This area is concerned with increasing students' knowledge and understanding of nature, materials and forces and with developing the skills associated with science as a process of

enquiry: for example, observing, forming hypotheses, conducting experiments and recording their findings.

Technological Technological skills can include the use of information and communication technology (ICT); developing, planning and communicating ideas; working with tools, equipment, materials and components to produce good quality products; and evaluating processes and products.

Human and social This area is concerned with people and with their environment, and how human action, now and in the past, has influenced events and conditions.

Physical This area aims to develop the students' physical control and co-ordination as well as their tactical skills and imaginative responses, and to help them to evaluate and improve their performance. Students should also acquire knowledge and understanding of the basic principles of fitness and health.

Aesthetic and creative This area is concerned with the processes of making, composing and inventing. There are aesthetic and creative aspects of all subjects, but some make a particularly strong contribution, including art, music, dance, drama and the study of literature, because they call for personal, imaginative, and often practical, responses.

Underlying Principles of the Curriculum

The documented curriculum is broad, balanced and sequenced in a way to promote students' access and progression. It is guided by the mission of the school and the needs of the enrolled students. The curriculum offers students a pathway to improve their performance and to aim beyond their current level of attainment.

- All students are entitled to and should be offered a comparable range of educational opportunities;
- There are differences in the abilities, aptitudes, interests and other characteristics of students which need to be considered;
- The learning environment and teaching methodology are important factors in determining whether some of the aims are achievable;
- Most students are mastering both the English language medium of the curriculum and its content. Assessment, support, and awareness of EAL/ ESL needs are addressed throughout the phases;
- The curriculum promotes the development of global citizenship and intercultural learning;
- The curriculum promotes the development of digital citizenship;
- Co-curricular activities such as school productions, fund-raising activities and field trips all contribute to the overarching learning experience.

The curriculum shall encourage students to:

- Apply skills, knowledge and understanding;
- Use an exploratory approach to problem-solving;
- Have confidence in their ability to solve problems;

- Undertake individual projects and work as part of a team;
- Develop oral and practical skills;
- Share specific examples of their intercultural learning.

Education, Health and Care (EHC) Plans may be devised for selected students (as recommended by the Head of SEND, Heads of Department or outside agencies). They should have input from the teachers and Head of SEND, the student and parents/guardians. The Head of SEND will ensure that admissions, discipline and other procedures (school trips, examinations etc) take account of students' learning difficulties or disabilities. These are reviewed on a regular basis.

PSHE is taught through a number of Awareness Afternoons.

In each Key Stage there are adapted, and formal learning programmes related to child protection including areas such as personal safety, grooming, online safety, and healthy sexual behaviour.

At IGCSE, the curriculum content for each syllabus is designed to meet the syllabus aims and objectives. Careers guidance is provided through Awareness Afternoons, and included in the tutorial programme in Key Stage 5.

All lessons, except for French, Spanish, Catalan and German are delivered in English.

Curriculum Planning

Students are expected to have a common experience of a subject as it is delivered. Long term planning is shared with parents in the form of curriculum overviews. These are available on the school website and are reviewed regularly.

While there is not a definitive format for medium term plans, they are expected to have the following information:

- lesson objectives
- links to specific curriculum
- assessment opportunities

Medium term planning

- This should broadly use the English National Curriculum objectives across Key Stages 1, 2 and 3. IGCSE and A' level learning outcomes should be included on plans for Key Stage 4 and 5.
- Newsletters are published on the school website every fortnight.
- Creativity and cross-curricular planning is encouraged.
- Links to internationalism, interculturalism and global citizenship.

Curriculum transition and collaboration

The SLT meet regularly to discuss and review curriculum matters. Termly Heads of Department meetings (Primary and Secondary) allow for vertical/horizontal articulation, work scrutiny and sharing of good practice.

Role and Responsibilities

Teachers

- All teachers use learning objectives/outcomes from syllabus/curriculum being delivered to meet the individual needs of students
- All teachers are expected to have good subject and curriculum knowledge and to maintain these at a good level.
- All teachers follow the curriculum maps for their subject(s) and perform systematic reviews with a view to continuous improvement of practice
- All teachers liaise with Heads of Departments/ Coordinators to ensure equality of delivery of curriculum

Subject Leaders

- Subject leaders are responsible for the curriculum and its development, reviewing and modifying schemes of learning and resources as required, to ensure that the curriculum on offer is rich and inspiring and that the most appropriate courses are followed

Curriculum Leader/HOS/HOP/HoSIXth responsibilities

- to liaise with Heads of Department
- to arrange moderation and standardisation across subjects
- to ensure appropriate curriculum coverage for all subjects
- to publication of curriculum maps and newsletters
- to provide support for Subject Leaders

Principal

- Lead the establishment of a fulfilling curriculum, timetabling, and co-curricular programme, which supports the vision and mission of the School.
- Overall responsibility for the delivery of a broad, varied and challenging curriculum that is suitable for our students.
- Monitor and evaluate the quality of teaching and learning through varied observation activities, leading teaching and learning planning, assessment and evaluation.
- Analyse student performance data, including benchmarks, and implement action to ensure all students are making good to outstanding progress.

Differentiation

Teachers create learning opportunities which challenge students to achieve their potential. Teachers and support staff plan to meet the needs of all students by ensuring learning is focused on individual students' needs and abilities. Outcomes from assessment of/for learning enable teachers to set targets which reflect individual students' skills, abilities and potential. Students are given tasks which are appropriate to their level of ability, including higher attaining students. In order to encourage all students to demonstrate what they can do, understand and achieve, teachers shall differentiate the curriculum according to individual needs.

Baleares International College

Mallorca

an Orbital Education School

Community links/ partnerships

Our community celebrates the cultural interaction between traditional British educational values and modern Spanish life. Our teachers make a positive contribution to the local and wider community through involvement in the arts, sports and cultural activities. The school actively seeks to establish partnerships and networks with other schools, locally and beyond the country, to enrich the learning opportunities available to the students, including, for example, service, mentoring, internships and the development of students' leadership.

This policy will be reviewed every three years by the Principal

This policy will be approved by Orbital Education

Date when policy was last approved: September 2021

Date when next review is due: September 2024
